Accessibility

- FAIL

Missing <main> landmark

No <main> element found. Screen readers use landmarks for page navigation.

Fix: Add a <main> element to define the main region of the page.

WCAG 1.3.1
- FAIL

Missing <header> landmark

No <header> element found. Screen readers use landmarks for page navigation.

Fix: Add a <header> element to define the header region of the page.

WCAG 1.3.1
- FAIL

Missing <footer> landmark

No <footer> element found. Screen readers use landmarks for page navigation.

Fix: Add a <footer> element to define the footer region of the page.

WCAG 1.3.1
- WARN

Hash target missing scroll-margin-top for fixed nav

#Top may be obscured by fixed navigation when scrolled to via hash link.

Fix: Add CSS: #Top { scroll-margin-top: 80px; } (adjust to match nav height).

Learned fix: Fixed navbars need scroll-margin-top on section targets equal to nav height (~80px). CSS: section[id] { scroll-margin-top: 80px; }

WCAG 1.4.10
- FAIL

Form input missing label

<input type="search" id="search"> has no associated label.

Fix: Add a <label for="inputId"> or aria-label attribute.

WCAG 1.3.1
- INFO

Below-fold image not lazy loaded

Image may be below fold and should use loading="lazy".

Fix: Add loading="lazy" to images that are not visible in the initial viewport.

WCAG 1.4.10

53 instances
- WARN

@media (prefers-reduced-motion) not detected in inline CSS

No prefers-reduced-motion media query found in inline styles. May exist in external stylesheets.

Fix: Add @media (prefers-reduced-motion: reduce) { * { animation: none !important; transition: none !important; } }

WCAG 2.3.3

WARN Form missing live region for feedback

Form has no role="alert" or aria-live container for error/success messages.

Fix: Add a container with role="alert" or aria-live="polite" for form feedback messages.

WCAG 4.1.3

WARN External link missing rel="noopener noreferrer"

7 instances

Link to "https://calendly.com/sendproud/30min" opens in new tab without rel="noopener noreferrer".

Fix: Add rel="noopener noreferrer" to all links with target="_blank".

WCAG 3.2.5

FAIL No H1 heading found

Page has no H1 element. Every page should have exactly one H1.

Fix: Add a single H1 element that describes the page content.

Learned fix: Eyebrow labels before the main H1 should be <p> or not <h2>. H1 must be the first heading element for SEO and screen reader outline.

WCAG 1.3.1

WARN H1 is not the first heading element

First heading is <h6>. H1 should be the first heading on the page.

Fix: Ensure H1 appears before any other heading. Convert eyebrow labels to <p> or .

Learned fix: Eyebrow labels before the main H1 should be <p> or not <h2>. H1 must be the first heading element for SEO and screen reader outline.

WCAG 1.3.1

FAIL Elements must meet minimum color contrast ratio thresholds

2 instances

Ensure the contrast between foreground and background colors meets WCAG 2 AA minimum contrast ratio thresholds

Fix: Element has insufficient color contrast of 3.91 (foreground color: #718488, background color: #082930, font size: 11.3pt (15px), font weight: normal). Expected contrast ratio of 4.5:1

WCAG 1.4.3

WARN Heading levels should only increase by one

Ensure the order of headings is semantically correct

Fix: Heading order invalid

WARN Document should have one main landmark

Ensure the document has a main landmark

Fix: Document does not have a main landmark

FAIL Links must have discernible text

Ensure links have discernible text

Fix: Element is in tab order and does not have accessible text

Element does not have text that is visible to screen readers
aria-label attribute does not exist or is empty
aria-labelledby attribute does not exist, references elements that do not exist or references elements that are empty
Element has no title attribute

WCAG 2.4.4

WARN Page should contain a level-one heading

Ensure that the page, or at least one of its frames contains a level-one heading

Fix: Page must have a level-one heading

WARN All page content should be contained by landmarks

Ensure all page content is contained by landmarks

Fix: Some page content is not contained by landmarks

FAIL Interactive element has empty or minimal accessible name

Interactive element (a) has an empty or single-character accessible name: "". Screen reader users cannot determine its purpose.

Fix: Add a descriptive aria-label to this a element.

WCAG 4.1.2

FAIL Icon name "help" leaks into accessible label

Element announces as "help@sendproud.com" — starts with icon name "help". Add aria-hidden="true" to the icon element inside this control.

Fix: Add aria-hidden="true" to the icon element inside this a, or use a proper aria-label.

WCAG 4.1.2

WARN Skip link target is not programmatically focusable

Skip link target exists but is missing tabindex="-1". Focus may not land correctly in Firefox and some screen readers.

Fix: Add tabindex="-1" to the element with id="Top".

WCAG 2.4.1

SEO

WARN Missing canonical URL

No <link rel="canonical"> found. This helps prevent duplicate content issues.

Fix: Add <link rel="canonical" href="https://www.sendproud.com/"> in the <head>.

WARN Missing og:image meta tag

Open Graph tag og:image not found. Social sharing will not display correctly.

Fix: Add <meta property="og:image" content="..."> in the <head>.

Learned fix: Remove /public/ from og:image path. In Vite/CRA production builds, /public/images/x.png should be /images/x.png.

WARN Missing og:url meta tag

Open Graph tag og:url not found. Social sharing will not display correctly.

Fix: Add <meta property="og:url" content="..."> in the <head>.

INFO Missing twitter:image meta tag

Twitter Card tag twitter:image not found.

Fix: Add <meta name="twitter:image" content="..."> in the <head>.

INFO No JSON-LD structured data found

No <script type="application/ld+json"> found. Structured data improves search appearance.

Fix: Add JSON-LD structured data (e.g., Organization, WebPage, Article schema).

WARN sitemap.xml not found

https://www.sendproud.com/sitemap.xml returned status 404.

Fix: Create and submit a sitemap.xml for better search engine crawling.

INFO No sitemap link in <head>

No <link rel="sitemap"> found in the document head.

Fix: Add <link rel="sitemap" type="application/xml" href="/sitemap.xml"> in <head>.

Security

FAIL

Missing Content-Security-Policy header

No CSP header found. CSP prevents XSS and data injection attacks.

Fix: Add a Content-Security-Policy header. Start with: default-src 'self'; script-src 'self'; style-src 'self' 'unsafe-inline'

FAIL

Missing clickjacking protection

Neither X-Frame-Options nor CSP frame-ancestors is set. Page can be embedded in iframes.

Fix: Add X-Frame-Options: DENY or Content-Security-Policy: frame-ancestors 'none'

WARN

Missing X-Content-Type-Options: nosniff

Browser may MIME-sniff responses, leading to security issues.

Fix: Add X-Content-Type-Options: nosniff header.

WARN

Missing Referrer-Policy header

No Referrer-Policy set. Full URLs may leak to third parties.

Fix: Add Referrer-Policy: strict-origin-when-cross-origin

WARN

Missing Permissions-Policy header

No Permissions-Policy header. Browser features like camera, mic, geolocation are not restricted.

Fix: Add Permissions-Policy: camera=(), microphone=(), geolocation=()

WARN

Unknown third-party script: d3e54v103j8qbb.cloudfront.net

External script loaded from d3e54v103j8qbb.cloudfront.net which is not a recognized CDN.

Fix: Verify that d3e54v103j8qbb.cloudfront.net is a trusted source. Consider using Subresource Integrity (SRI).

WARN

Unknown third-party script: cdn.prod.website-files.com

External script loaded from cdn.prod.website-files.com which is not a recognized CDN.

3 instances

Fix: Verify that cdn.prod.website-files.com is a trusted source. Consider using Subresource Integrity (SRI).

Performance

FAIL

Slow response time: 4.7s

Page took 4.7s to respond. Target is under 1s.

Fix: Investigate server-side performance. Consider caching, CDN, or reducing server processing time.

WARN

53 below-fold image(s) not lazy loaded

53 images after the initial viewport lack loading="lazy".

Fix: Add loading="lazy" to all images that are not in the initial viewport.

WARN

No images use loading="lazy"

58 images found but none use lazy loading.

Fix: Add loading="lazy" to images below the fold to improve initial page load.

INFO

No <link rel="preload"> for critical resources

No preload hints found. Preloading critical fonts, scripts, or CSS can improve load time.

Fix: Add <link rel="preload" href="critical.css" as="style"> for critical resources.

INFO

Missing preconnect for 2 third-party domain(s)

No preconnect hints for: ajax.googleapis.com, d3e54v103j8qbb.cloudfront.net

Fix: Add `<link rel="preconnect" href="https://ajax.googleapis.com">` for frequently used domains.

WARN

1 render-blocking script(s) in <head>

Scripts without defer/async block rendering: <https://ajax.googleapis.com/ajax/libs/webfont/1.6.26/webfont.js>

Fix: Add defer or async attribute to scripts in <head>, or move them before </body>.

WARN

57 image(s) without explicit width/height

Images without dimensions cause Cumulative Layout Shift (CLS).

Fix: Add width and height attributes to all elements to reserve layout space.
